

What did you like and/or dislike about the book? _____

Two quotes from the book that illustrate what you liked and/or disliked (include page numbers):

(Example: If you think it was funny, find two examples of funny things and quote them. Use EXACT quotes and quotation marks.)

Theme: A theme is simply a statement about the way things are. A theme is not a moral or a lesson. It does not express right or wrong, and it does not include *should/shouldn't*. A theme does not cast judgment; it is just a simple truth about life. Themes are universal ideas that apply to everyone, not just the characters in the book, so don't name specifics from the book when you state the theme. Example of a theme from *Jurassic Park*: Those who mess with nature are often destroyed by it. (This is illustrated by the story because in *Jurassic Park*, many of the scientists who bring back the dinosaurs get eaten by the dinosaurs. Notice that the theme statement doesn't mention specific characters or events, and it could apply to other situations and books. Get it?)

State one theme of the book: _____

To whom do you recommend this book and why? _____

Is there anything unique about the book, something that sets it apart? How is it different than most other books?

What rating (out of five stars) did you give the book on Goodreads? _____

What date did you post your formal review on Goodreads? _____

Reminder/Warning:

If you complete this review without reading the book, you are cheating. Any form of cheating or plagiarism (copying from classmates or from the Internet, allowing others to copy, etc.) will result in a score of zero and have citizenship consequences. **The only way to earn your reading credit is by reading and honestly responding to what you have read.** Don't cheat or help others cheat. Just keep reading!
