

Actors in Shakespeare's Day

Stephanie Chidester

1994: <http://www.bard.org/SectionEducate/shakespeareactors.html>

The status of the actor in society has never been entirely stable but has fluctuated from the beginnings of the theatre to the present day. The ancient Greeks often considered actors as servants of Dionysus, and their performances were a sort of religious rite. Roman actors, often slaves, were seen as the scraps of society, only one step above gladiators. In medieval Europe, both the theatre and the actor, suppressed by the Catholic Church, were almost non-existent but gradually re-emerged in the form of the liturgy and, later, the Mystery plays. The actors of Shakespeare's age also saw fluctuations in reputation; actors were alternately classified as "vagabonds and sturdy beggars," as an act of Parliament in 1572 defined them, and as servants of noblemen.

As early as 1482, noblemen such as Richard, duke of Gloucester (later Richard III), the earl of Essex, and Lord Arundel kept acting companies among their retainers. But other than these select groups protected by nobles, actors lived lives of danger and instability because when they abandoned their respectable trades, they also left behind the comfort and protection of the trade guilds.

However, life soon became much more difficult for both of these classes of actors. In 1572, Parliament passed two acts which damaged thespians' social status. In the first one, the Queen forbade "the unlawful retaining of multitudes of unordinary servants by liveries, badges, and other signs and tokens (contrary to the good and ancient statutes and laws of this realm)" in order to "curb the power of local grandees" (Dennis Kay, *Shakespeare: His Life, Work, and Era* [New York: William Morrow and Company, Inc., 1992], 88). One result of this was that some of the actors, now considered superfluous, were turned away.

To make matters even worse, these actors faced yet another impediment: the "Acte for the punishment of Vacabondes" (Kay, 88), in which actors were declared "vagabonds and masterless men and hence were subject to arrest and imprisonment" (Thomas Marc Parrott and Robert Hamilton Ball, *A Short View of Elizabethan Drama* [New York: Charles Scribner's Sons, 1943], 46).

However, there were still nobles, such as the earl of Leicester and the earl of Sussex, who endorsed players; the protector would usually seek royal permission for these actors to perform in London or, less frequently, some other less prestigious town. Thus the actors were able to venture forth without fear of arrest. It is through these circumstances that Shakespeare ends up an actor in London.

There are many theories--guesses really--of how Shakespeare got into the theatre. He may have joined a group of strolling players, performed around the countryside, and eventually made it to London, the theatrical hub of Britain. Another theory suggests that he began as a schoolmaster, wrote a play (possibly *The Comedy of Errors*) and then decided to take it to London; or, alternately, he could have simply gone directly to that great city, with or without a play in hand, to try his luck.

An interesting speculation is that while he was young, Shakespeare might have participated in one of the cycles of Mystery plays in Stratford: "On one occasion the Stratford corporation laid out money for an entertainment at Pentecost. In 1583 they paid 13s 4d 'to Davi Jones and his company for his pastime at Whitsuntide.' Davi Jones had been married to Elizabeth, the daughter of Adrian Quiney, and after her death in 1579 he took as his wife a Hathaway, Frances. Was Shakespeare one of the youths who trimmed themselves for the Whitsun pastime?" (S. Schoenbaum, *William Shakespeare: A Compact Documentary Life* [New York: New American Library, 1977], 111).

But however he got into the theatre and to London, he had made a very definite impression on his competitors by 1592, when playwright Robert Greene attacked Shakespeare as both actor and author: “‘There is an upstart Crow, beautified with our feathers, that with his Tiger’s heart wrapt in a Player’s hide, supposes he is as well able to bombast out a blank verse as the best of you: and . . . is in his own conceit the only Shake-scene in a country’” (G. B. Harrison, *Introducing Shakespeare* [New York: Penguin Books, Inc., 1947], 1).

We don’t often think of Shakespeare as primarily an actor, perhaps because most of what we know of him comes from the plays he wrote rather than the parts he played. Nevertheless, he made much of his money as an actor and sharer in his company: “At least to start with, his status, his security derived more from his acting skill and his eye for business than from his pen” (Kay, 95). Had he been only a playwright, he would likely have died a poor man, as did Robert Greene: “In the autumn of 1592, Robert Greene, the most popular author of his generation, lay penniless and dying. . . . The players had grown rich on the products of his brain, and now he was deserted and alone” (Harrison, 1).

While Shakespeare made a career of acting, there are critics who might dispute his acting talent. For instance, almost a century after Shakespeare’s death, “an anonymous enthusiast of the stage . . . remarked . . . that ‘Shakespear . . . was a much better poet, than player’” (Schoenbaum, 201). However, Shakespeare could have been quite a good actor, and this statement would still be true. One sign of his skill as an actor is that he is mentioned in the same breath with Burbage and Kemp: “The accounts of the royal household for Mar 15 [1595] record payments to ‘William Kempe William Shakespeare & Richarde Burbage seruantes to the Lord Chamberlain’” (Kay, 174).

Another significant indication of his talent is the very fact that he played in London rather than touring other less lucrative towns. If players were to be legally retained by noblemen, they had to prove they could act, and one means of demonstrating their legitimacy was playing at court for Queen Elizabeth. The more skilled companies obtained the queen’s favor and were granted permission to remain in London.

Not all companies, however, were so fortunate: “Sussex’s men may not have been quite up to the transition from rural inn-yards to the more demanding circumstances of court performance. Just before the Christmas season of 1574, for example, they were inspected (‘perused’) by officials of the Revels Office, with a view to being permitted to perform before the queen; but they did not perform” (Kay, 90). Shakespeare and his company, on the other hand, performed successfully in London from the early 1590s until 1611.

It would be a mistake to classify William Shakespeare as only a playwright, even the greatest playwright of the English-speaking world; he was also “an actor, a sharer, a member of a company” (Kay, 95), obligations that were extremely relevant to his plays. As a man of the theatre writing for a company, he knew what would work on stage and what would not and was able to make his plays practical as well as brilliant. And perhaps more importantly, his theatrical experience must have taught him much about the human experience, about everyday lives and roles, just as his plays show us that “All the world’s a stage, / And all the men and women merely players” (*As You Like It*, 2.7.149-50).
