# Pneumonoultramicroscopicsilicovolcanoconiosis

- pneumo- = lung
- ultra- = beyond
- micro- = small
- scopic- = to see
- silico- = flint, quartz
- volcano- = fiery
- keni- = dust
- osis- = diseased condition

A disease of the lungs [caused by] dust from volcanic ash [so fine as to be] beyond the range of [an instrument that] sees very small things.

We create words all the time by piling word cells together:

I went to the zoo to see an elephant.

There was no elephant at the zoo, so the zoo was elephantless.

Because of the zoo's elephantlessness, I became upset.

I am a person who is against elephantlessness, so I am an antielephantlessnessarian.

In fact, I am so strongly opposed to elephantlessness, you might even call me hyperantielephantlessnessariaphobic.
